CF 450

HEAVY DUTY SOLVENT DEGREASER

DESCRIPTION

CF 450 is a heavy duty solvent degreaser to remove grease, oil, carbon, soil and stains.

APPLICATION

CF 450 is used in difficult degreaser areas with high degree of efficiency with its extra strong and safe properties of solvency. It emulsifies the most stubborn grease, oil, organic and inorganic soils with high wetting agents making rinsing complete, leaving a clear grease-free surface.

FEATURES

- No dangerous toxic solvents
- No flash point
- Safe on most metals
- Reduces labour cost
- Safe on skin
- Easy to use
- Pollution free

METHOD OF USE

CF 450 is used concentrated or may be diluted with 5 parts of solvent (kerosene) depending on the condition of the cleaning job. It can be applied by brush, deck broom or dripping. Some agitation will help to hasten the cleaning job. Allow it to react on soil for about 20 minutes. Rinse with fresh or seawater. It is very suitable for the cleaning of engine rooms, tanks, bilges, tank tops, bulkheads, deck greases and oil accumulation. Hardened oil splatters and spills can be easily removed with CF 450 by means of agitation or soaking for 14-30 minutes depending on soils. Flush with high pressure jets within the tolerant p.s.i..

PACKING

25 litres and 205 litres

Important Notes

Chemforce product data sheets are regularly reviewed and available on request. The successful use of this product is dependent on a number of factors. As the information contained in this literature can only be of a general nature, it is advisable to consult our technical department if there is any doubt about the correct use of this product in a particular application. Our Sales and Technical representatives are available to provide further technical and commercial assistance.
