CEMENT REMOVER

CEMENT STAIN REMOVER

DESCRIPTION

This product is specially designed for contractors to remove cement stains on new or old tiles, mosaic and concrete floor. It is also effective for removing rust stains and lime scales.

FEATURES

- Simple and easy to handle
- No special poison permit needed
- No irritating fumes and odor
- Contains 8% Hydrochloric acid

METHOD OF USE

- Apply CEMENT REMOVER directly on the surfaces and allow several minutes for reacting.
- Scrapping is required if mortar deposits are present.
- Rinse thoroughly with water.
- Do not leave CEMENT REMOVER soaking on the floor for too long.
- It can be diluted with up to 10 parts of water for lighter stains.

SAFETY

This product is acidic and rubber gloves should be worn to avoid prolonged skin contact. Splashes in the eye should be flushed with plenty of water and medical advice obtained.

PACKING

5 litres, 25 litres and 205 litres

Important Notes

Chemforce product data sheets are regularly reviewed and available on request. The successful use of this product is dependent on a number of factors. As the information contained in this literature can only be of a general nature, it is advisable to consult our technical department if there is any doubt about the correct use of this product in a particular application. Our Sales and Technical representatives are available to provide further technical and commercial assistance.
