# CHEM STRIP

## WAX STRIPPER

### DESCRIPTION

CHEM STRIP is a high performance stripper for metallic floor finish.

### APPLICATION

CHEM STRIP can be used to strip old floor wax or finishes on all types of thermoplastic and synthetic floor coatings. Testing should be done prior to use on soft stone floors such as marble and terrazzo. It can be used as a hard surface cleaner at a lower concentration.

### FEATURES

- Fast dissolving and emulsification
- Without strong odors of ammonia
- Easy rinsing and do not cause adhesion problem
- Can be used with mop and strip system

### METHOD OF USE

- CHEM STRIP is recommended to be diluted at 1:3 with water.
- Apply solution to floor surfaces to be stripped and allow 5 minutes to react.
- Scrub with a black nylon pad and a slow speed rotary machine.
- Vacuum the slurry from the floor immediately. Do not allow slurry to dry to prevent re-deposition.
- Rinse with water and allow to dry before application of floor finishes.

### SAFETY

Protective gloves should be worn to avoid prolonged skin contact.

### PACKING

25 litres

---

#### Important Notes

Chemforce product data sheets are regularly reviewed and available on request. The successful use of this product is dependent on a number of factors. As the information contained in this literature can only be of a general nature, it is advisable to consult our technical department if there is any doubt about the correct use of this product in a particular application. Our Sales and Technical representatives are available to provide further technical and commercial assistance.
