SWOP

MULTI-PURPOSE INDUSTRIAL CLEANER

DESCRIPTION

SWOP is a multi-purpose spray and wipe industrial cleaner.

APPLICATION

SWOP quickly cuts through and removes soils from almost any hard surfaces. It is highly concentrated and removes grease, oil, stains and wax easily. SWOP is especially useful for cleaning kitchen equipment and machines like oven, cookers, stoves, basins, sinks and display cases. SWOP is also used to remove rubber scuff marks from the floors, clean air-conditioning systems, hoppers and kettles in the brewing and distilling industries.

FEATURES

- Highly concentrated and economical
- Does not leave film or after odors
- Non-caustic, non-corrosive and non-acidic
- Does not contain hydrocarbon solvents and is non-flammable
- Contains rust inhibitors and is safe on all surfaces including aluminum and stainless steel
- Can be used on paint (except old oxidized paint), vinyl, wood, plastic and rubber surfaces

METHOD OF USE

SWOP can be sprayed with a trigger sprayer onto a wide variety of hard surfaces to remove soils and wiped clean with damp cloth. SWOP can be diluted with up to 10 parts of water.

SAFETY

Protective gloved should be worn to avoid prolonged skin contact. Any splashes in the eye should be immediately flushed with plenty of water and medical advice obtained.

PACKING

5 litres, 25 litres and 205 litres

Important Notes

Chemforce product data sheets are regularly reviewed and available on request. The successful use of this product is dependent on a number of factors. As the information contained in this literature can only be of a general nature, it is advisable to consult our technical department if there is any doubt about the correct use of this product in a particular application. Our Sales and Technical representatives are available to provide further technical and commercial assistance.
